### GAAR GIVEN \$50 AND 30 DAYS

Yesterday afternoon Grover Gaar was tried in the police court on a charge of unlawful possession of liquor and was given a sentence of \$50 and 30 days, which sentence he appealed. About a week ago the police captured him and thirteen pints of booze which was alleged to be his property. His companion made a break at the first alarm and has not been seen since.

the circulation must be stimulated not only to prevent congestion, but to furnish material for repairing the injury. It is impossible to treat such injuries from the outside, but our liniments are the ideal external applications for all such troubles and the rubbing necessary in applying them helps stimulate the circulation. ## BOOSTER CAMPAIGN THAT REALLY WON

How the Cincinnati People Put the "Town Knocker" Down and Out.

In every progressive American city men are being divided into two classes—the "booster" and the "town knocker." In the movement of city planning and building the town knocker has been caricatured in many poses and has also become a character of editorial comment and discussion, says Chalmers Pancost in the Tradesman.

In an address made recently before the Cincinnati Commercial Association Hugh Chalmers, the Detroit automobile manufacturer, defined the "booster" and the "knocker" without wasting words. "A booster," he said, "is the fellow who does all he can for all the people he can, for the longest time he can, and leaves the rest to God. A knocker is made to hang on the outside of a door—and for heaven's sake let it hang there."

A big fight was made against the knocker in Cincinnati through a campaign conducted by the Tom Development Company to build up a boosting organization. The fight was made through large posters headed "The Town Knockers," through newspaper editorials and squads of men going

out among the knockers and pulling them into line.

Battles are being waged in other cities, not to run the knocker out of town, but to win him, and change him into a booster. When this is done he boosts just as hard as he knocked.

The greatest problem confronting the fifty-six hundred boosting organizations in the United States today is, "How to Win the Knocker." He cannot be killed off, eliminated or abused; he must be converted into a town booster.

Knockers are the negative elements in the work of city development. They are interfering with the progress of a nation simply because they are ignorant of what is best for them. The knocker is continually working against his own interests and the interests of his town. He is more of a detriment to a community than its poor. He is a pauper in judgment and common sense.

In Cincinnati the knocker was won by educating himself to be ashamed of himself. A clear distinction was made between the "knockers" and the "kickers." Thousands of handsome engraved "booster pledges" were distributed to Cincinnatians who should have been boosting the town. The booster's pledge emphasized the point that no man has a license to kick or complain about lack of progress in the town until he has become a booster. The license to boost was a license to kick, but no man was given a license to knock. On the reverse side of the "booster's pledge," was a "license to kick." By signing the li-

## NOTICE CHANGE OF DATE

On account of the 30th being traveling men's day in Oklahoma City we have changed the date of our demonstration to Saturday, Oct. 7th. We will on that date give you a treat free. Don't forget the date, Oct. 7th, A. M. BAILEY, Hale-Halsell Gro. Co., Dealers in the Kind That Are Not Water Packed.

had once been called to vote on it, which election went by default and that at different times the former council had been lenient in the matter, and that he did not consider the police officers to blame in the matter. The city attorney was instructed to draw an ordinance repealing the present ordinance, and present it at the next meeting of the council. This hog question has been one of considerable worry to the city authorities, many people complaining about unsanitary conditions near them, and owners of hogs opposing the enforcement of the ordinance. At all events, the action of last evening indicates that, for a time at least, Ada will be wide open as far as hogs are concerned.

Wymore read a petition from the owners of Concrete addition, on the site of the old nursery, to annex that section to the city. He introduced an ordinance to that effect and it was referred to the ordinance committee. An ordinance was introduced regulating the storage of oils within the city limits. It, also, was referred to the committee.

For some months the matter of creating an additional sewer district has been discussed occasionally, and the matter was brought to a finish by having the city engineer submit plans, profiles and estimates. It was decided that the district be created at once. The line will extend from the north school along the alley between 4th and 5th streets, to Townsend avenue, where it will connect with the main line.

When the ordinance levying occupation taxes was read, some discussion came up over its scope and purpose, and for the guidance of the council the old ordinance, passed some four or five years ago, and which has since become a dead letter was read. In view of the fact that the matter is rather complex, a motion carried that the mayor appoint a special committee to thrash it all out and report at the next meeting. Timberlake, Ellison, Lasater and City Attorney Webb were appointed.

An agreement with Harry Parks concerning the rent of the city hall

license to boost the booster was given a license to kick.

This little scheme met with popular favor, and brought hundreds of responses from chronic kickers. The cleverness of the idea appealed to them and enabled the boosters to secure more than 1,500 new members for their town development organization.

The large sheet bulletins, sent through the mail, demonstrated clearly that the only way to stop town knocking is to conduct a whirlwind campaign to bring all business men closer together. Then came the announcement that the town knocker

auditorium was entered into whereby he is to pay \$40 for back rent, \$10 for the month of September, and \$20 per month hereafter.

A. B. Meyer asked to be allowed to connect with the city phone line. Referred to water committee and city engineer.

It gave thousands of business men the opportunity to cultivate the grace of friendship, the virtue of forgiveness and the advantage of helping one another. In this way the spirit of progress has become most apparent in Cincinnati "Team work" has become their slogan and "harmony of purpose" is their great issue.

Every business man in that city has this thought burned deeply into his memory—that the growth of his town is his business and the business of every fairminded man in the city.—Nashville Tennessean.

Today the case of W. E. Miller vs. the M. O. & G. railroad has been on trial before a jury. Miller was employed by the railroad as storekeeper at Muskogee. While attempting to board a train passing his station, he slipped on some coal dumped near the track and one foot was so badly mangled that a part of it had to be amputated. He asks for \$20,000 damages.

Charles Quest and his step-daughter, Miss Annie Lee Clark, who have been here looking after their land, returned to their home at Fairbury, Illinois, this morning. They stayed here about a week, but Mr. Quest declared that they must hurry back and cool off.

### DAY IN THE DISTRICT COURT

The case of Gardner vs. Gardner tried in the District Court yesterday, was carried over until Monday for final action. The next suit was that of Brinlee vs. Brents, in which plaintiff sought to set aside a transaction involving the title to a farm, received for town property. The case was decided in favor of the defendants, but allowed to remain open so as to include two other defendants in order that the title may be finally cleared.

## WINTER ONIONS

One of the fresh vegetables which  
we can have during the winter is  
green onions, and our failure to have  
them is usually due to neglect in  
planting until too late. The sets  
should be put out in September in or-  
der to give them a good start before  
cold weather sets in, which will  
check their growth and injure the  
smaller ones.

Select a rich sandy loam soil which  
is well drained and prepare it thor-  
oughly. Do not make the mistake of  
putting out onion sets in poor soil,  
for they will not make a good growth  
and again if the soil is not well drain-  
ed, the frequent freezing and thaw-  
ing around the bulbs will destroy them.

In case you manure your soil at  
planting time, well rotted manure  
should be used and thoroughly in-  
corporated in the soil.

Lay off your rows eighteen or  
twenty four inches apart and they  
may be opened with a hand cultivator  
or a hoe. Farther south it is only  
necessary to barely cover the sets,  
but in this climate it is desirable to  
open up the furrows about two to  
two and one half inches deep and  
merely cover the sets at planting  
time, and as the cold weather sets in  
gradually work the soil to the plants  
which will protect them. The sets  
should be placed three inches apart  
in the furrow, covered and the soil  
pressed around them.

Onion sets will begin to grow with  
comparatively little moisture, but do  
not infer from this that they should  
not be kept cultivated, both for the  
conserving of soil moisture as well  
as aerating the soil.

Sets planted and cared for as indi-  
cated above should furnish some  
small onions late in November, or ear-

ly in December. By the time one usu-  
ally begins to put out sets in the  
spring, he should have plenty of nice  
green onions ready for the table  
from this fall planting.—Department  
of Horticulture, Oklahoma A. & M.  
College, Stillwater.

## Diversification in Louisiana.

Six years ago Louisiana annually  
imported some 20,000,000 bushels of  
corn with which to feed her stock.  
Her own farmers did not know how  
to cultivate corn. Farmers' institutes  
have now taught them how, and last  
year and this Louisiana not only raised  
corn enough for her own use, but  
became an exporter as well. As a re-  
sult of the boys' corn club movement,  
a Louisiana boy in December, 1910,  
won first prize at the National Corn  
Show at Columbus, Ohio, in competi-  
tion with 46,000 other boys, with corn  
he had grown on land which had  
never before produced more than 20  
bushels to the acre. He got 138 bush-  
els per acre at a total cost of 13c  
per bushel.

Many other illustrations of the  
striking changes that have taken  
place in Louisiana during the past  
few years might be cited. For in-  
stance, a single town in the pine belt  
in one season has shipped 650 car  
loads, averaging 700 crates per car,  
of strawberries grown on cut-over  
pine lands which four years ago were  
held in little esteem. A cotton farm-  
er, who was all but ruined by the  
boll weevil, turned his cotton lands  
into potatoes, onions and other food  
stuffs and doubled his profits over  
the best year he had ever had in cot-  
ton before the boll weevil came. A  
Michigan man last year got 50 tons  
of sugar cane per acre from artifi-  
cially drained land which the native  
farmers would not have paid 50c an  
acre for ten years ago.

## "Grandfather Clause" Before

### Federal Courts Again

Enid, Okla., Sept. 26.—Upon the  
outcome of a case called in the Uni-  
ted States district court here Mon-  
day probably depends the constitu-  
tionality of the "Grandfather clause"  
of the Oklahoma constitution which  
prescribes certain qualifications pre-  
cedent to the exercise of the right of  
suffrage, and which, it has been  
charged restricts negroes in voting.  
The case is that wherein J. J.  
Beall and Frank Gunn, election in-  
spectors, are charged with conspir-  
acy to prevent certain negroes from  
voting at a recent congressional elec-  
tion. The day was given over to  
the examination of talesmen in the  
selection of the jury.

## His Zeal Lands a

### Health Officer in Jail

Enid, Okla., Sept. 26.—As a result  
of the burning of a "shack" in the  
business district here early Monday  
night, Dr. E. C. Damrell, county  
health officer who has been waging  
a relentless fight against the poorly  
constructed buildings in the down-  
town district is in jail charged with  
arson.

The prosecution will attempt to  
show that he deliberately set fire to  
the building, and then took his motor  
car and journeyed to a tent in which  
a wild west show was being held and  
invited one and all of those inside to  
come with him and watch the fire.

## CRUCE DELAYS ACTING

### ON SWANSON MIDDLE

Oklahoma City, Ok., Sept. 26.—  
Gov. Cruce will take no action in the  
matter of Swanson county until after  
Sept. 29, when the case of the  
Dorsey Printing Company of Dallas  
against dissolution of the county will  
be heard in the Federal court at  
Enid. Adjt. Gen. Canton returned from  
Mountain Park today and reported to  
Gov. Cruce that those interested in  
the Swanson county controversy an-  
nounced they were waiting for the  
federal court to act, but declined to  
say, upon advice of their attorney,  
William H. Atwell, of Dallas, whether  
that would end the controversy or  
not. Attorney Atwell advised them,  
the adjutant general was told, to  
make no agreement; however, the at-  
torney was quoted as saying that he  
did not think the matter would be  
carried further.

Gov. Cruce did not indicate what  
steps he would take following the  
federal court hearing. However, he

was inclined to believe that so long  
as the matter was legitimately in  
court all rights should be respected.  
A position taken by the Mountain  
Park people is that the county was  
created by a proclamation of Gov.  
Haskell and not even the supreme  
court has authority to undo it. Sev-  
eral people in Swanson county are  
wanted on warrants issued by the  
district court, the charges ranging  
from contempt of court to murder in  
the first degree, but they have de-  
clined to surrender or to be arrested by  
either the Sheriff of Comanche or  
Kiowa Counties.

## 2,600 MILES BY DOG TEAMS.

Spokane, Wash., Sept. 26.—Twenty-  
six hundred miles by dog team from  
the Arctic ocean via the MacKenzie  
river to Spokane, is a trip to be un-  
dertaken the coming winter by E. S.  
Dowling of Spokane, who is prospect-  
ing on the delta of the northern  
stream and along the shore of the  
sea. Writing from Fort McPherson  
Dowling says in a letter to acquaint-  
ances in this city: "There have been  
but few white men over these arctic  
wilds, and those who have made the  
trip have told so little that the lay  
reader has not even the remotest idea  
of what it all means. From the be-  
ginning at Athabaska Landing, Al-  
berta, Canada, the trip is full of thrill-  
ing experience, which cannot be told  
in a letter of ordinary length. It  
would require a book of many pages  
of text and illustrations to do justice  
to the subject. I have arranged to  
pass several years in prospecting, but  
if all goes well I shall make the trip  
to Spokane with my dogs and sled  
during the winter." Dowling gives  
no indication of his success or fail-  
ure in finding ground of value in the  
far northern district.

Many people believe that blonde, or  
light hair denotes affection and dark  
hair constancy. A person without hair  
is not devoid of character; far from it.  
The disposition of the average bald-  
headed man is to show such solicitude  
for the welfare of others, that he neg-  
lects himself. A germ causes baldness,  
Prof. Sabouraud, of Paris, France, in-  
accidentally a rabbit with Dandruff germs,  
causing it to become totally bald in five  
weeks' time. To rid the scalp of these  
dangerous germs it is necessary to apply  
Newbro's Herpicide.

"Destroy the cause—you remove the  
effect."

# PIANOS!

Don't Listen to the knockers. You know when a fellow has the best goods, somebody begins to knock. Come to L. T. Walters' Store and compare **PIANO VALUES** and be convinced that we have the best grade of pianos in town.

What's the difference whether I sold five Pianos or a dozen in the last few months? I did not Ship 25 pianos to Ardmore and try to put on a sale and sell ONE piano, and during the same time have a competitor sell 40 pianos and then have to ship the balance out of town.

I do not hold sales all over the State and ship Shop-worn and Second-hand Pianos and try to work them off on people who are not posted.

I do not try to avoid paying my taxes by waiting till the assessor has been around and then get up and leave town before tax-paying time.

Haven't Got It? Well, I Guess YES! Come to my store and I can show you the Baldwin Piano better than I can tell you about it.

My pianos are all standard, and, as I stated before, I have No Stencils in stock. Let me prove it to you. The Baldwin line is the Best Pianos on Earth. **CASH OR EASY PAYMENTS.**

# S.S.S. FOR SUMMER SKIN DISEASES

During the summer most persons are annoyed with pimples, boils, rashes or eruptions, while others suffer more severely with Eczema, Acne, Tetter, Salt Rheum, or some kindred skin disease. All skin affections come from humors and acids in the circulation. The blood, as it circulates through the system, deposits these humors and acids in the sensitive membranous flesh which lies just beneath the outer skin. This acid matter causes inflammation and a discharge which breaks through the delicate cuticle, and skin diseases are the result. To cure any skin trouble the blood must be freed from all acids and humors, and for this purpose nothing equals S.S.S. This great blood purifier completely removes every particle of the impurity, enriches the blood, and in this way permanently cures skin diseases. S.S.S. cures because it purifies the blood and thus does away with the cause. Book on skin diseases and any medical advice you may desire sent free. S.S.S. is for sale at drug stores.

## FRENCH WAR SHIP BLOWN UP

OVER 800 MEN KILLED WHEN MAGAZINE OF BATTLESHIP EXPLODES.

Toulon, France, Sept. 25.—The battleship Liberte was torn apart and totally destroyed by an explosion of her magazine Monday. Between 350 and 400 officers and men are dead or missing. The battleship Republique was badly damaged and the battleships Democratic and Verite also suffered severely from the masses of twisted iron and armor plate which were hurled upon their decks.

This is the greatest disaster that has ever fallen upon the French navy and in magnitude is almost without precedent in the annals of the world's fighting ships. The grief which prostrate the fleet and nation is made more intense by the memory of the recent review here, a notable display of France's naval greatness in which the doomed ship was one of the finest figures.

The explosion, which wiped out one of France's newest and most powerful battleships, occurred at 5:53 o'clock this morning. It was the result of an outbreak of fire. The flames spread rapidly in spite of all efforts to master them and reached the magazines before there was time to flood them. The magazines exploded with tremendous violence, strewn death and destruction in every direction.

More Than Three Hundred Perish.

While the naval authorities estimate the fatalities at 300, it is expected this figure will be exceeded. It will be necessary to go through the ship muster rolls, a task of some days, before a full list of the victims can be prepared. A number of men already have been extricated alive from the fantastically torn and twisted mass of wreckage which one was the Liberte, and the hope is strong that there are others within the broken hulk who can be reached.

Exactly from what cause or when the fire broke out has not been established, but it is believed it had smoldered for hours. Of the vessel's full complement of 742, Captain Jauris, brother of socialist leader, and the second officer in command, both were ashore on leave, as well as 140 officers and men. The command of the ship devolves upon the senior lieutenant, who perished.

## McKEEL HEADED REVOLT AT MINSTREL SHOW

It is not often that the News takes any pleasure in saying "I told you so," but in the matter of the O'Brien Minstrels, which aggregation gave a performance in Ada last evening, the paper may be pardoned for so doing. The News spoke advisedly when in yesterday's paper it was stated that it did not appear to be worthy of much patronage, and events of the evening bore out the statement.

The management spoke of the bunch as "Georgia Minstrels." Perhaps they were, but evidently the manage was not, or he would have known better than to have placed reserved seats for negroes side by side with those for whites. At all events, such was the state of affairs, and a vigorous protest at once went up. J. F. McKeel finally declared his intention of leaving, and a long string of other indignant citizens followed him out. The manager at first refused to refund their money, but when he found he was dealing with a lawyer, and one who meant business when he demanded his money, the managers refunded to the disgruntled purchasers of tickets. After they left they kept out a large number of their friends who had intended going in, but who had no fancy to sit on a plane of equality with negroes.

Mrs. A. Sallie Mauritz, of Granada, Texas, arrived yesterday afternoon for a visit to her parents, L. C. Lindsey and wife.

Jack McMillan is back from Clinton for a few days. He is about the first man we have seen in a many months who once lived at Ada and insists that he likes his present location full as well as he did Ada.

## YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy, Made from Garden Sage, Restores Color to Gray Hair.

A feeling of sadness accompanies the discovery of the first gray hairs, which, unfortunately, are looked upon as heralds of advancing age. Gray hairs, however, are not always an indication of advancing age, for many people have gray hairs quite early in life. Of course, it is unnatural, and indicates that there is something wrong with the individual, and that nature needs assistance in correcting the trouble. The same is true of hair that is constantly falling out and becoming thinner every day. If everything is right with nature, the hair, even in comparatively elderly people, should be long, thick and glossy, without even a streak of gray.

The ideal assistant to Nature in restoring and preserving the hair is Wyeth's Sage and Sulphur Hair Remedy, a clean and wholesome dressing for daily use. It not only removes dandruff, but strengthens weak, thin and falling hair and promotes its growth. A few applications will restore faded or gray hair to its natural color.

Get a bottle today, and let it do for you what it has done for thousands of others.

This preparation is offered to the public at 50c a bottle and is recommended and sold by all druggists.

## NORMAL FACULTY GIVES RECEPTION TO STUDENTS

Last evening the Normal faculty tendered the student body a reception. After the usual formalities and refreshments of punch and cake had been served, a program was tendered. Miss Baker rendering a piano solo, Mrs. Perkins a reading, Prof. Beck a violin solo, Miss Van Wormer a vocal solo and Miss King a reading.

After labeling each one present with a tag bearing his or her name, a handshaking contest was held, the point being to excel in that delightful art. The first prize, a beautiful picture by Miss Turner, was awarded to Merle Sears. Ray Palmer was awarded the booby prize, a little red whistle. The last feature of the evening was a grand march, led by President and Mrs. C. W. Briles.

## CARNIVAL WILL REMAIN ON 12TH ST.

At the council meeting last evening, it was stated that the citizens living on West 12th street were complaining about the location of the street carnival and the council, deciding that it had no legal right on the street, ordered the chief of police to have it moved. This morning, however, the managers of the company secured the signatures of the people along that part of the street asking that the carnival be permitted to remain. Six of the aldermen then signed it, and in view of this new turn of affairs, Mayor Chapman issued a permit for the company to remain. It is getting things in shape for business this evening.
